

Why stay in a Villa rather than a hotel?

Staying in a good hotel or motel in the Disney area can prove very expensive for a family and you'll only get one or two rooms to accommodate everything and everyone. There is no real privacy especially when you need to relax and have time to yourself.

Our villa has all the space you could want as well as a wonderful, private, pool which your family can enjoy in privacy, comfort and peace and we all know that a bit of personal space is invaluable on holiday! Also, eating in is so easy, flexible and inexpensive. The place becomes yours for the whole vacation - a real home from home.

We've set higher standards than you'll find in properties managed by a tour or management company. Our villa is furnished to our personal taste rather than by getting a contractor to fill it with the cheapest furniture pack available. That means comfortable beds, good quality fixtures and fittings and tasteful decoration including original art.

The larder is already stocked with a wide variety of everyday items and you'll probably even find some items in the freezer! You are welcome to use these items - all we would ask is that you replace any you finish. It's worked well for years and avoids unnecessary waste - what it really means is you don't have to do a vast amount of shopping just to make a meal and then throw away what you haven't used!

All the extras that you find missing from an hotel are here - no embarrassing trip down the hall for ice - put your champagne in the ice bucket provided! There are even bathroom scales - not for weighing yourself - they're to make sure you don't get a shock at the airport with overweight cases!

So if you value space and, don't want to have to fight anyone (apart from your own family) for the sun lounger of your choice, have a choice of 4 TV's to watch (after losing the fight for the last sun lounger), consider a villa. It's a far better choice!

It's also far cheaper - 2 rooms sleeping 8 in a 3* motel in March will cost you £134/\$240 per night - our villa is less than 1/2 of that! And you have 5 bedrooms! Need I say more?
